To Enable Java Script and Images on Firefox, follow the steps provided below

<u>Step 1:</u>

Open your browser, type "about:config" in the address bar

<u>Step 2:</u>

You must be able to see something like this Click on the "I'll be careful, I promise!" button.

<u>Step 3:</u>

In the search bar, search for "javascript.enabled" (with no quotes). You must be able to see some items listed below.

| about:config × 🜏 how do i enable javas | cript i × + | | | | | | | | X |
|---|--|---------|-------|------------|---|-----|---|---|----|
| Firefox about:config | | | | ⊽ C Soogle | ٩ | ☆ 自 | + | 俞 | ≡ |
| Search: javascript.enabled | | | | | | | | | × |
| Preference Name | Status | Туре | Value | | | | | | 12 |
| javascript.enabled | default | boolean | true | | | | | | |
| services.sync.prefs.sync.javascript.enabled | default | boolean | true | | | | | | |
| | Type "javascript.enabled"(with no quotes) and press enter. | | | | | | | | |

<u>Step 4:</u>

If Java script is enabled in the browser you should be able to see something like this

| Preference Name | | Status | Туре | Value |
|---|---|---------|---------|-------|
| javascript.enabled | | default | boolean | true |
| services.sync.prefs.sync.javascript.enabled | Τ | default | boolean | true |
| | the "value" column must be true to enable Java script | | | |

If the value column in JavaScript.Enabled is true, Right click on the row and Click on "Toggle". You'll be able to identify the change in the value column.
